NUMBER 267

SECURITIES CASE GIVEN JURY

Motion For Directed Verdict Of Acquittal Denied; Lawyers Conclude Arguments

That the case of the People vs. J. A. Rosenberger, would go to the jury in Superior Court about three o'clock this (Wednesday) afternoon, was apparent when court recessed at twelve o'clock.

At that hour, the arguments of counsel had been completed and the jury, upon reassembling at 2 o'clock, was to receive the instructions of Judge Geo. H. Thompson.

The hearing opened at noon Tuesday following selection of a jury during the morning session of court and after presentation of the People's case, the defense moved late Tuesday afternoon for a directed verdict of acquittal.

The jury was excused while attorneys argued upon the motion and the motion was denied by Judge Thompson, and, on motion of the defense, a recess was ordered until Wednesday morning.

The defense failed to present any testimony and the Wednesday morning court session, following re-opening of the People's case to take the testimony of two witnesses, was concluded by the arguments of attorneys.

Rosenberger is charged under the corporate securities act with dealing in stocks for which he held no permit to deal from the state corporation commissioner, in an alleged transaction with Leo and Kathleen Flynn, of Georgetown, in which they, assertedly, were persuaded to exchange Bank of America stock for stock in Oklahoma oil leases.

The opening argument for the state was by Attorney Robert E. Roberts, District Attorney Henry S. Lyon closed Attorney Bertram Ross and associate, of San Francisco, represent the defense.

Suicide Verdict Found Tuesday

Camino Man's Death Monday Is Investigated At Inquest Held At Courthouse

George W. Smith, 33, former Camino butcher, came to his death Monday as a result of a "self inflicted gun wound in the head," according to the findings of a jury of seven, which reviewed the circumstances in the case at an inquest Tuesday evening.

The inquest was conducted by Coroner A. J. Orelli at the Superior Court room at the courthouse and heard testimony by Charles E. Prouty, Deputy Sheriff William Bathurst and City Traffic Officer D. W. LeBourveau.

Prouty told of accompanying Mrs. Smith when she found the body of her husband in their living quarters Monday afternoon.

Deputy Bathurst reported his official investigation of the case and Officer LeBourveau stated he had been asked by the deputy to accompany him to Camino and corroborated Bathurst's report.

On the jury were Wade Wilson, J. A. Ybright, Irving Ball, Ernest Hanley, Charles Bloom, Dan Roussin and Jules Besse.

The body of Mr. Smith will be sent on Thursday morning in the care of Memory Chapel to San Francisco, where funeral services and interment will take place at the National Cemetery at the Presidio.

4 AMADOR PARLORS OF NATIVE SONS MEET FRIDAY, NOV. 19

The four parlors of the Native Sons of the Golden West in Amador County will meet jointly at Sutter Creek on Friday night, November 19.

Eldred Meyer, of Santa Monica, grand president of the order, will attend the meeting and Grand Trustee Henry S. Lyon, of Placerville, will pay an official visit to the four Amador County parlors.

The business meeting, at which there will be an initiation, will follow a turkey dinner at 6:30 o'clock. We understand that a number of members of Placerville Parlor No. 9 will accompany Grand Trustee Lyon to the meeting.

RANGE EXPERIMENT STATION ANNOUNCES FOREST INSTITUTE APPOINTMENT

Robert H. Weidman, Former Director Of Northern Rocky Mountain Unit, Accepts Assignment As Superintendent Of Forest Genetics Institute At Placerville

BERKELEY, (Special Dispatch)—The California Forest and Range Experiment Station announces with a great deal of pleasure the acceptance of Robert H. Weidman of an appointment to be Superintendent of the Institute of Forest Genetics, at Placerville.

Mr. Weidman has taken up his new duties at the Institute at Placerville. He has had an exceptional experience during a long career in forestry and

is especially well qualified for the position because of his intimate knowledge of reforestation practices and results, and of the influence of heredity upon the adaption of trees to new environments.

Mr. Weidman is a graduate of the University of Michigan and has had twenty-five years of experience in the forest service. He has worked his way through various positions in the Forest Service in Oregon, Washington, Idaho and Montana and was appointed director of the Northern Rocky Mountain Forest and Range Experiment Station in 1921.

He held this position until 1931 when, because of his deep interest in experimental work, he was, at his own request, given research responsibilities and freed from administrative duties. Since 1931 he has been Senior Silviculturist at the Northern Rocky Mountain Forest and Range Experiment Station, with headquarters at Missoula, Montana.

To his new position, Mr. Weidman therefore brings an excellent combination of thorough scientific background and long practical experience. This unique preparation makes him especially well qualified to carry out the Superintendent's duties connected with the program of tree breeding that has been in progress at the Institute of Forest Genetics for some years.

Mr. Weidman will work under the technical supervision of Lloyd Austin, director of the institute.

He expects to move his family to the new Superintendent's quarters at the Institute in the near future. At present Mrs. Weidman and their two boys, aged 14 years and 12 years, are at Missoula.

GUILTY PLEA ENTERED ON POSSESSION OF FIREARMS

Tony Para, charged with possession of firearms within a game refuge, entered a plea of guilty before Judge of the Peace T. F. Lewis on Wednesday morning and was fined \$25.

Para had been cited October 12 and appeared November 15 to enter a plea of not guilty. He asked a jury trial which was set for November 22.

On his Wednesday appearance, he withdrew the earlier plea and admitted guilt.

Para was one of a group cited by game wardens in the Wright's Lake District and his fine was the same amount as that imposed on others of the group who entered guilty pleas in the Justice Court at Georgetown.

C. J. Ruple, cited in the Georgetown court, entered a plea of not guilty and was acquitted in a jury trial.

Information Filed In Tear Gas Case

An information was filed in Superior Court Wednesday afternoon by District Attorney Henry S. Lyon, charging Hamilton Flint with possession of a tear gas gun illegally.

Flint, arrested several days ago by city officers on suspicion of intoxication, was found, upon being searched, to have a tear gas gun in his possession, the officers report.

He was bound over for trial at a preliminary hearing before Justice of the Peace T. F. Lewis.

Placerville Man Weds Roseville Girl

Lloyd Miller, son of Mrs. Mary E. Miller, of Reservoir Hill, and Miss Matilda Nichols, of Roseville, were married at Reno on November 14.

The bridegroom is a graduate of our county high school and is employed as a barber at Sacramento. The bride is an operator in a Sacramento beauty parlor.

Following a wedding trip, the couple will make their home in the capital city. We join their many friends in good wishes.

FAIR PREMIUM LIST CHECKED

\$30,000 Award Summary Will Go To Supervisors, State For Final Auditing

A re-check of the \$30,000 premium list of the recent El Dorado County Fair has been completed and will be submitted to the fair board of directors at their meeting tonight at Hotel Raffles for final approval, it was announced Wednesday noon by George E. Faugsted, chairman of the board.

Mr. Faugsted was unable to say what the total of items in the premium list is, but said a "general idea" may be gained when it is known that there are 1,801 items in the food show list.

Following approval by the directors of the fair, the list will be submitted to the county Board of Supervisors.

After passing their inspection, the list will go to the state finance department for final auditing and when this is completed, Faugsted said, checks for premium winners will be available.

China Boosts Air Power

Number Of Planes Almost Doubled Since Opening Of War, Institute Finds

By ROBERT L. SPENCER
United Press Staff Correspondent
SAN FRANCISCO (UP)—A significant strengthening of China's air defense by importation of large numbers of foreign-made aircraft is disclosed by the American council, Institute of Pacific Relations.

According to the council's report, a steadily increasing number of fast fighting planes have been imported into China in undisclosed quantities from several countries, including the United States, France and Great Britain.

Because Chinese pilots are more proficient in handling light pursuit planes than heavy bombers and also because of the enormous cost of the larger planes, the Chinese government does not favor an increase in the number of bombers, which it holds are largely weapons of attack, the report said.

Chinese pilots were strongly handicapped at the beginning of the war, according to the report, by the resignation of many American instructors and mechanics.

The council report pointed out that there has been no confirmation of rumors that foreign pilots are participating in the Sino-Japanese conflict.

Four Are Initiated By De Molay Chapter

At the meeting of El Dorado Chapter, Order of De Molay, on Friday evening, four new members were initiated. The new members are Richard Walters, Don Cozens, Daryl Prouty and James T. Thorne, Jr.

Diamond Springs Pair Wed At Reno

According to press reports from Reno, a license to wed was issued at that place on Tuesday to Albert Martin, 23, and Elsie Krien, 18, both of Diamond Springs.

30-Cent Gate Bridge Fare Advocated

SAN FRANCISCO, (UP)—A. R. O'Brien, Ukiah, a director of the Golden Gate Bridge and highway district, today proposed to the directorate that bridge tolls be cut to 30 cents one way, 50 cents round trip, to meet cut rate automobile ferry competition.

POISED FOR A DANCE which, who knows, may carry her to a film contract, is Carolyn Clark, four-year-old grand daughter of Mrs. Frank Anderson, of Placerville, and daughter of Mr. and Mrs. Orval Clark, of Niland, California.

SCREEN TEST FOR TINY TOT SET

Grand Daughter Of Placerville Woman May Get Chance To Become Filmland Child Star

Carolyn Clark, Hollywood won't have to substitute a stage name for that, because "Carolyn Clark" is euphonic,—sounds nice. And it would look just fine in electric lights across the front of a movie theater, too. Maybe it'll get there, some day.

The possessor of this euphonic name is the daughter of Mr. and Mrs. Orval Clark, of Niland, this state, and grand daughter of Mrs. Frank Anderson, of Placerville.

Carolyn is four years old, and as you may judge by looking closely at her slippers in the accompanying picture, likes to dance on her toes.

What's more important just at this time is that Mrs. Anderson has received word that Carolyn is about to have a screen test at Hollywood.

Of course, there may be many a hurdle between a screen test and a contract, but lots of people have never been able to get even a screen test.

And, who knows? The screen needs a cute four-year-old girl again, since Shirley Temple's getting a little beyond that part.

KNIGHTS TEMPLAR FALL INSPECTION TO BE NOVEMBER 26

Harvey E. Teller, of San Francisco, Grand Captain General of the Grand Commandery of Knights Templar, and department commander of department No. 1, and Inspector W. A. Applegate, past commander of Sacramento Commandery No. 2, Knights Templar, will attend a meeting of El Dorado Commandery No. 4, K. T., on Friday evening, November 26, in Placerville.

The meeting will follow a 6:30 o'clock turkey dinner at the Masonic temple and during the meeting the temple degree will be conferred.

Inspector Applegate will also conduct the fall inspection of El Dorado Commandery at this time.

Mrs. Albert Simon Is Lions' Speaker

Her recently concluded trip around the world was the subject upon which Mrs. Albert Simon spoke at the regular Tuesday luncheon meeting of Placerville Lions at Hotel Raffles.

Mrs. Simon spoke before the club at the invitation of the entertainment committee for the month, of which Lion Thomas Maul is chairman.

Her trip occupied a span of eight months and gave her opportunity to study the lives and customs of the peoples of many lands and this formed the background for her interesting and very entertaining talk.

GOV. MERRIAM FARM SPEAKER

Executive Urges Retention Of 3 Per Cent Sales Tax, "Truly A School Tax"

MODESTO, (UP)—Delegates attending the 19th annual convention of the California Farm Bureau Federation heard their President, R. W. Blackburn, voice an appeal to organize labor to cooperate in making of permanent economic stability.

Blackburn said exorbitant demands made upon agriculture by labor could not be met and said labor was not justified "in exacting more out of production of farm crops than the man who has his investment tied up in production, and who is forced to pay taxes, interest, wages and costs."

Gov. Frank P. Merriam appealed for retention of the three per cent sales tax, which he termed "truly a school tax." He said repeal of the tax would place the tax on land.

The Governor also spoke in opposition to plans for a unicameral legislature, saying Los Angeles, San Francisco and Alameda counties would control the state under such a plan of representation.

The convention will adjourn Thursday.

Federal Surtax Charges Opposed

Statewide Campaign Announced By Placerville Man, Chairman Of Tax Committee

A statewide campaign of business and industrial leaders in support of proposals for revision of the federal surtax on undistributed profits is securing recognition of the special congressional sub-committee considering tax revision, according to James Irving, chairman of the tax committee of the Sacramento Valley Council of the state chamber of commerce.

Irving reports that the statewide committee has presented a series of recommendations to the congressional sub-committee, aimed at clarifying the act, eliminating conflicts between state and federal laws, permitting the payment of outstanding debts contracted in good faith, permitting normal expenditures for expansion, and permitting adequate reserves for normal business operation.

Thousands of letters have gone to California's congressional delegation to point out the need for early revision of the surtax act. The congressional committee has received the recommended changes, which are being given consideration. Congressman Frank H. Buck is the only western members of the committee and is being appealed to by thousands of Californians to present the California viewpoint as expressed in the State Chamber's recommendations.

"BUG PATROL" FACING INVESTIGATION BY COMMITTEE

SAN FRANCISCO, (UP)—A special committee to investigate the "value and necessity" of motor vehicle inspection at California's borders was appointed today by A. J. McFadden, president of the California State Chamber of Commerce, at the request of Ray L. Ingels, director of the state department of motor vehicles.

The committee includes Harry A. Mitchell, Sacramento; Earl Warren, Alameda county district attorney; W. J. Quinn, San Francisco chief of police; Fred Pabst, Irving Kahn, Ralph Taylor and Watt L. Moreland. The committee will meet December 1 in Sacramento.

Placerville Youths On U. C. Honor Roll

Eugene Tevis Bishop and Donald Goodrich, Jr., both of Placerville, have been placed on the honor list of the University of California at Berkeley for distinguished work in their chosen field of study. Mr. Bishop is a student in the College of Chemistry, and Mr. Goodrich is a student in the College of Commerce.

George Taylor is home from a session of mining in Tuolumne County.

EBB TIDE!

CANADIAN ATHLETE WINS POLITICAL POST IN TORONTO

TORONTO, (UP) — Lionel Conacher, long-regarded as the best athlete Canada ever produced, continued his winning ways in his political debut, winning a Toronto constituency for the victorious Liberal party.

Conacher announced his retirement from the sports scene several months ago, and his recent political success confirms his decision. He was a star in several sports before he turned to professional hockey, in which he starred several seasons as a defense man. He helped the Chicago Black Hawks win the Stanley Cup in 1934 and aided the Montreal Maroons in capturing the championship the following year.

In his amateur days, Conacher was a sensational football player. He won a tryout with Toronto's International League baseball club, and was one of the best lacrosse players in the Dominion. He also excelled as a boxer and was credited with a knockdown in an exhibition bout with Jack Dempsey when the champion was in his prime.

Mendocino County ranchers are testifying to the value of native and introduced grasses for range purposes.

This & That

By The Tattle-tale

If last night was any test for Placerville's music lovers you may be sure the town passed with flying colors. When the weather is nice, everyone with a ticket turns out but when the weather is a bit damp as it was last night, only then do we see those who love music for music's sake. Vitold Farrelle, violinist, played a well selected group of classical pieces while his accompanist, Emerie Rudland, who is a musician in her own right, delighted the audience to such an extent that she was asked to play an encore. At the risk of becoming boring, some of us should like to again express our thanks to those that have made the concerts possible in Placerville—towns so situated have little opportunity to cope with larger centers in the matter of really fine entertainment and those that have worked to obtain these advantages deserve everyone's heartiest thanks.

Possibly every person has his or her own pet idea on how the ills of the world could be cured—at least, most of our friends have. One individual confided to us recently that child labor is one of the biggest causes of the economic dilemma we are now in and abolishing of this would undoubtedly put the country back to normalcy; another told us that retiring every person over sixty-five would cure this country of its trouble; still another believes the thirty-six hour week or even the thirty-hour week would turn the trick. Well, we believe the abolishment of child labor would cure some evils but surely that does not account for all the unemployment—neither could any country afford to retire all citizens over sixty-five for people over that age have not outlived their usefulness as far as thinking is concerned, whatever other faults they may have. Nor do we believe the shorter working week is the cure for our problems though we would be the last person to say that the world will never see a shorter working week. An interesting set of figures and facts have recently reached us from France where the government, under its humanitarian leader Leon Blum, last year strove to put in effect the forty-hour week for everyone—even the small one-family businesses. The first effect was a rapid increase in living costs and prices. Though employment increased seven per cent (some say it was increasing before the measure was passed) the output of industry decreased considerably until the law finally had to make some compromise until a survey had been made. The answer seems to be that everything can't be done by law and that not until our entire system is ready to embrace such a schedule can it be achieved. In America, of course, the skilled crafts are already down to the forty-hour week but the

classes lower in the scale are not quite ready to take the cut. No efficient study that we know of has yet been made though we must confess we are not too well acquainted with the subject. We'll read up on it though and let you know as soon as we get some definite information.

A certain magazine which we follow sporadically has the custom each year

of selecting whom they believe to be "THE Man of the Year." Considerable controversy precedes the selection and the magazine invites readers or interested spectators to send in nominations. We notice that Senator Burton K. Wheeler heads the list with John L. Lewis, Charlie McCarthy, Chiang Kai-Shek, Justice Hugo L. Black, and Surgeon Thomas L. Parran, running in the order named. There are

several names that undoubtedly belong on the list—we might mention Fiorello La Guardia or Thomas Dewey, Cordell Hull, or Joe De Maggio (who would certainly get all of San Francisco's votes). No, we haven't decided who we would nominate—but let's hear your choice. We know several we would like to nominate for oblivion—Dave Beck, Franco and Vargas, George M. Cohan, Father Coughlin.

ASSOCIATED FARMERS TO MEET DECEMBER 6 AT SAN JOSE

Washington, Oregon, California and Arizona, the Associated Farmers of California, Inc., will hold its annual convention Monday, December 6, in the civic auditorium at San Jose. This will be the first time farmers from the four Pacific Coast states have met together and as a result of the meeting it is probable there will be formed a coast-wide association.

The meeting is to hear an address prepared by Governor Charles H. Martin of Oregon, also talks by Ray Riley, of the California State Railroad Commission, by John E. Pickett, editor of Pacific Rural Press, by State Senator John Phillips, who has recently been making a study of labor conditions in Europe including a visit to Russia, and by others.

Important resolutions to be considered will cover the proposal for the establishing of a unicameral legislature in California, the proposed initiative for the creation of a state labor relations board and the proposed initiative for the repeal of the sales tax and imposition of the so-called single tax.

Robed Gang Raids Night Club In Miami

MIAMI, Fla., (P)—More than 100 white robed and masked men and women early today climaxed a raid on a nightclub near here by burning a huge cross directly in front of the establishment.

The raiders broke through the front door of the club shortly before midnight. They routed approximately 40 customers, overturned chairs and tables, dragged two waiters to the street and beat them severely.

Death Bares Woman In Role Of Butler

OYSTER BAY, N. Y., (P)—Doctors revealed today that they could have saved the life of "Alfred Grouard" if the quiet, efficient butler in the home of wealthy Joseph Hamblen Sears had been willing to submit to an examination which would have unmasked "him" as a woman.

Grouard posed as a man for 14 years. Not once was her true sex suspected.

The doctors said she had diabetes and they could easily have saved her life had she submitted to treatment when the disease first became acute.

Telephone That Chimes Being Installed

CLEVELAND, (P)—The chiming telephone has been introduced in Cleveland.

Replacing the old jangling of the bell, the new instrument offers a harmonious chime and is more compact than the old telephone.

The new phone is available at present only for new main service installations, but officials said that 13,000 are expected to be installed in the city by the end of the year.

Motorcycle Funeral For Racing Driver

ST. LOUIS, (P)—This city saw its first motorcycle funeral when pallbearers and nearly 100 friends rode in the funeral procession for Murrell Kemp, 26-year-old rider, killed in a race at Jerseyville, Ill.

Dressed in uniform breeches and white shirts, the cyclists rode in pairs behind the hearse which carried the body to the cemetery.

HOLY LAND DISORDERS MAY CONTINUE FOR LONG PERIOD

By JACOB SIMON

United Press Staff Correspondent
JERUSALEM, (P)—The type of warfare taking place in the Holy Land—ambushes and guerilla tactics—augurs a protracted and painful process of restoration of order by the government.

Arab nationalists are resisting the "encroachment" of Jews and resisting the plan of the mandate authority, Britain, to partition the country between Arabs and Jews. There have been scores of deaths.

The activities of attacking terrorists are believed to be directed from an Arab underground headquarters which the British are unable to discover, much less stamp out. No Arab patriot will betray his kinsmen endeavoring to free their race from the "infidel imperialists." As illustration of this, the reward of \$50,000 offered for evidence of the murderers of Lewis Yelland Andrews, British district commissioner of Galilee, still is unclaimed. Also is more than \$400,000 in rewards posted by the government from time to time for information on similar crimes committed since last year's revolt.

DOG RESCUES TODDLER FROM DROWNING IN NEBRASKA LAKE

SIDNEY, Neb., (P)—The pet dog of 14-months-old Gerald M. Kruger enjoys the privileges of a hero today.

Gerald wandered from his home, near a lake, and was missing for several minutes. His father, in searching for him, found only the dog swimming frantically in a circle near the lake's shore.

Going closer, he found only his son's shoes above the water. Rescued, the boy was revived by artificial respiration and oxygen at a local hospital, where doctors estimated he had been under water for at least five minutes.

GHOULS STEAL BODY, DEMAND RANSOM OF \$100

STREETSVILLE, Ont., (P)—The family of 20-year-old Hayden Pope buried him twice, after ghouls took the body from the Streetsville cemetery grave and left a ransom note in the coffin.

The body was found by a party of children at the bottom of a crossroads ditch eight miles north of this village.

The desecrated grave was discovered with the coffin partly pulled out of the hole, its lid unscrewed and the body removed. The note inside demanded \$100 from the parents for the return of their son's body.

The Pope family is not wealthy, and police were puzzled by the ransom demand.

JUNK RACKET BARED

PHILADELPHIA, (P)—The world's most important race and the consequent increase in scrap iron prices has resulted in a new racket in Philadelphia. Four men were arrested after police received complaints that at least 14 man-hole covers had been stolen.

The Shafter district, Kern County, has several hundred acres of milo ready

PST! "OFF THE RECORD" ALFALFA SALAD IS AWFUL, DECLARES TEXAS BUSINESS MEN FOLLOWING "NOBLE EXPERIMENT"

EL PASO, Tex., (P)—El Paso valley farmers believe there is little likelihood of the nation adopting alfalfa as a health salad.

Hopes for a new market for one of the principal crops of the valley soared when Dr. Victor Heiser, author of "An American Doctor's Odyssey," said people should eat alfalfa salad for their health.

"I have returned from Africa where they are eating alfalfa salad," the authority on public health said. "It is delicious and rich in inorganic salts. The body never has enough of these salts. Alfalfa furnishes them."

Enthusiastic El Paso gourmets went to fields and gathered large bunches of green alfalfa and announced an alfalfa salad luncheon.

Prominent citizens assembled at a downtown cafe to watch Chef Andy Beys supervise preparation of the salad. A crowd formed and many necks were craned as the luncheon progressed.

A heaping plate of alfalfa a la Heiser was placed before C. R. Morrill, chairman of the board of county development. He shoved in a large mouthful and chewed vigorously.

"They say it makes you feel young," he said. He kept chewing "Is that true, doctor?"

"It not only has inorganic salts but

TINY CHINA SET

DRESDEN, (P)—So small and delicate is a 150-piece China set now on exhibition here that a breath would blow it away. "Do not breathe heavily, fragile," says a sign in front of the exhibit, which is said to be the smallest China service in the world.

Mrs. R. W. Nance was a visitor on Tuesday from Pilot Hill.

alfalfa is rich in vitamins," said Dr. Felix P. Miller, a luncheon guest. Dr. Miller ate with zest. He used vinegar sparingly, preferring the natural flavor of the green hay.

"Mashed up and put through a colander, this might be all right," Dr. Miller finally reported.

"Why not can it?" inquired Dr. R. B. Homan.

"Yes, why not?" said Warren Mitchell, who ate one bite of the green stuff, then turned to the eggs on the plate.

George Wood, a valley farmer, eating a steak at the next table, stared in amazement.

"I will deliver alfalfa free to anyone who wants to eat it," he said.

In deference to the spirit of the occasion, hungry guests nibbled at their salads for 30 minutes. Then Chef Beys called for an unannounced but regular lunch. The salad course was officially called "successful"; unofficially, it was pronounced awful.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

RELIEF SOUGHT

CHICAGO, (UP)—Thomas D. Harmon, 65-year-old retired mail clerk, filed a petition in circuit court late yesterday for vacation of an order under which he has paid \$8400 in alimony—\$25 a month for 28 years to his former wife, Bridget. He was married to her only 16 months, his petition said.

M. L. St. John, Escalon, uses an electric heating cable to heat honey for extraction.

Distillery Waste Nets Profit As Stock Feed

PEORIO, Ill. (UP)—A movement to stop diver pollution forced Beoria liquor distillers to find other uses for their waste products until they have built up a profitable business in by-products.

Before the campaign got under way industrial waste in the river here reportedly was equivalent to the sewage volume of a city of 3,000,000 population.

Now the distilleries dry the grain after fermentation and sell it for cattle feed. Prices have ranged from cost, \$10 a ton, to as high as \$42.

Mr. and Mrs. Will Wilhite returned over the week-end from a vacation in the southern part of the state.

SUN VALLEY, Ida. (UP)—Ernest Ashook, an Eskimo, found his quarters at Sun Valley Lodge uncomfortable. The management of the million dollar hostelry was puzzled. So Ashook, who handles the lodge's private stock of reindeer, was followed. He was found living in an igloo, built from snow on the sawtooth mountains.

NOTICE OF APPLICATION FOR SEWAGE DISPOSAL PERMIT CITY OF PLACERVILLE

Notice is hereby given that the City of Placerville has filed with the State Board of Public Health application for permit to intercept sewage now discharged into Hangtown Creek and pipe it to a treatment plant site consisting of approximately 2 acres, located on the south side of Hangtown Creek contiguous to and just below the Associated Gas Company substation, and is 400 feet below the westerly city limits. At said site the sewage is to be treated in settling tanks and a bio-filter and effluent after chlorination will be discharged to Hangtown Creek, opposite the plant. Sludge, removed by the process, will be digested and gases collected and burned.

Further information on the project and the application may be gotten at the office of the City Clerk or at the office of the Bureau of Sanitary Engineering, 3093 Life Sciences Building, Berkeley, California. Any protests based on nuisance or menace to health shall be filed with the State Board of Public Health at Sacramento on or before two weeks from date of this notice. Protests on grounds other than nuisance or menace to health cannot be considered by the Board.

WALTER M. DICKIE, M. D.
Director, State Department of Public Health.
Dated: November 15, 1937-6t.

FORMER RUM-RUNNER NOW HAULS MELONS TO MARKET

CAMDEN, N. J. (UP)—After serving as an oyster schooner, fishing boat, rum-runner, Chinese smuggler and legitimate freight, the 56-year-old schooner E. P. Evans pulled sheepishly into port here recently with a cargo of watermelons.

Built in 1881, the boat, its sides seamed and barnacled, was captured 11 times by the U. S. government during its unsavory career.

Boyd Fagen, the present owner, came into possession of the schooner when it sank in 30 ft. of water near Cape May, N. J., in 1935. He raised the vessel to use as a potato-watermelon hauler until the ever-widening holes in the sides end its journeying.

Minnesota State Hospital Will Be Model

MOOSE LAKE, Minn. (UP)—Within half a year Minnesota's mentally ill will have a new, modern home which Federal authorities declare will be the best of its kind in the country.

Rising on the shore of Moose Lake is a \$2,500,000 group of hospitals and dormitories, designed to provide every known convenience for the mentally sick wards of the state.

"The finest institution of its kind I have ever seen," is the way T. J. Fowler, chief resident engineer and inspector for the PWA, characterized the project.

Roosevelt Confined To Bed For Second Day

WASHINGTON, (UP)—For the second successive day an aching infected tooth kept President Roosevelt confined to his bed in the White House today. All presidential engagements were canceled.

White House secretary Stephen T. Early spent a more comfortable night last night, awaking only once. The tooth was treated again today and it was believed it would not be necessary to extract it.

SORRY FOR TRAGEDY—Torn with grief and weary from questioning, at left is Paul A. Wright, Los Angeles airlines terminal president, charged with slaying his wife and John Kimmel, right, his best friend and business associate, when he found the couple in an embrace. Police said he confessed to the tragedy, blaming jealousy. Later he was sorry, believing their embrace innocent.

DOUBLE SLAYING TO BE REENACTED BY STATE TO TEST DEFENSE

LOS ANGELES, (UP)—A man and woman will embrace each other on a piano bench in the living room of Paul A. Wright's home where a man and woman were slain last week, and a third man, representing Wright, will stand in the bedroom doorway and aim a pistol at them.

This will be a reenactment of the slaying of Mrs. Wright and John B. Kimmel. Wright killed them.

Eugene Williams, chief investigator for the district attorney's office, is arranging the scene in detail.

The question to be decided is whether Wright could have fired the shots that killed his wife and Kimmel while he stood in the bedroom doorway, as he said he did. Where he stood, whether in the doorway, shocked and surprised at finding Kimmel and his wife kissing, or in the center of the room directly over them, firing calmly and deliberately, may be the chief point in deciding his fate at court.

Crawling Hillside Perils L. A. Traffic

LOS ANGELES, (UP)—A 2,000,000-ton hillside, two blocks long and only a mile from the city hall, was creeping slowly across Elysian Park today, approaching a busy highway and railroad yards.

The movement shows signs of some speeding up this morning and guards were standing at each end to sound an alarm in case the bluff should start tumbling down upon power lines, water pipes, the road and railway tracks.

CARD OF THANKS

We wish by this means to express publicly our heartfelt thanks and appreciation to the kind friends and neighbors who offered their sympathy and assistance on the occasion of the recent death of our beloved daughter, mother and sister. We wish especially to thank the minister and the singers and the pallbearers and those who sent the beautiful floral tributes.

THIRST DECLARED AID TO RELIEF FROM HEADACHES

CORVALLIS, Ore. (UP)—A simple preventative for migraine (nervous, sick) headaches is believed to have been discovered by Frank K. Thompson, an Oregon State College graduate student in chemistry.

The secret of Thompson's method, he told members of the Oregon section of the American Chemical Society, is merely to regulate the amount of water or liquid that the suffered drinks and to maintain a constant borderline of thirst.

Eight years ago, at the age of 21, when Thompson had severe headaches, he was informed that he had an incurable affliction which might disappear by the time he reached middle age. It was then that he began to collect data regarding the attacks and attempted to co-ordinate his findings. He is now confident that he has found in what has been termed "Water imbalance" the key to the cause and prevention of the distressing malady.

He offers the following suggestions to headache sufferers:

Keep on the borderline of thirst all the time.

Do not drink large quantities of fluid at any time, particularly not before a cool night when perspiration is diminished.

If you feel an attack coming on, wrap yourself up in the warmest available spot and sweat it out—you may be able to avert an attack.

Dr. Roger J. Williams, professor of biochemistry at Oregon State College and internationally known for his work with pantothenic acid, says that young Thompson's method of treatment "appears to be perfectly plausible, but it needs further confirmation."

Mrs. H. H. Smith is reported as getting along nicely at Placerville Sanatorium following an appendicitis operation performed on Tuesday.

Mr. and Mrs. Hector Williamson were callers on Wednesday from the Springvale district.
